

Projekt Musikbox

Wir bauen und programmieren eine Musikbox mit Hilfe eines Raspberry Pico 2 W.

Hierbei durchlaufen wir folgende Schritte:

- Einleitung/Vorstellung der Musikbox, der Begriffe, des Simulators
- Installation Thonny und Flashen der Firmware
- Zusammenbau

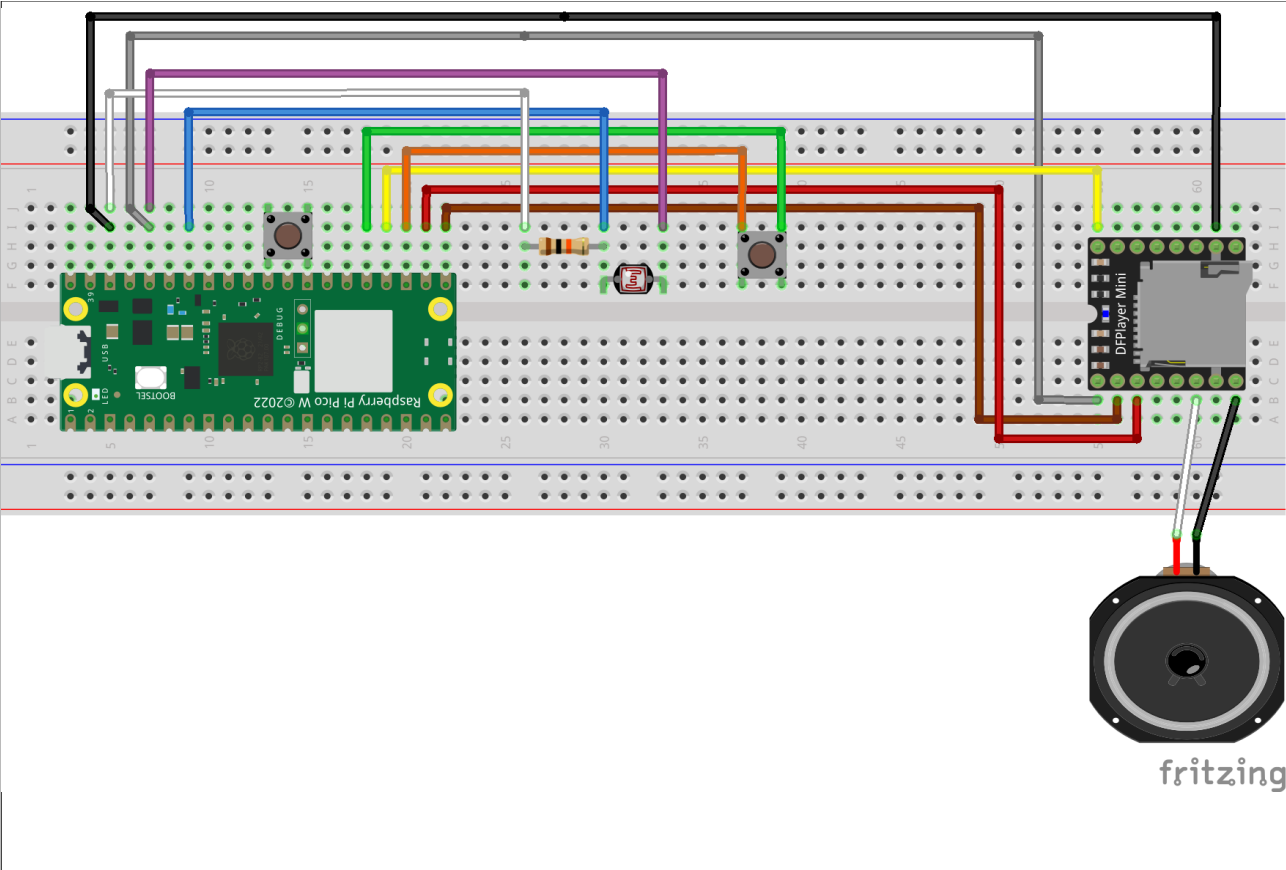

Einleitung

https://www.raspberrypi.com/ -> Documentation -> Microcontrollers -> Pico-series Microcontrollers -> Raspberry Pi Pico 2 W	Pico 2 W Dokumentation
https://magazine.raspberrypi.com/	Maker Magazin
https://pico2.pinout.xyz/	Pinout (Achtung Pico 2 nicht Pico 2 W)
https://wiki.dfrobot.com/DFPlayer_Mini_SKU_DFR0299	DFPlayer Dokumentation
https://wokwi.com/	Pico Simulator
https://ttsmp3.com/ai	Text-2-Speech

Installation Thonny und Flashen der Firmware

https://projects.raspberrypi.org/en/projects/getting-started-with-the-pico	Getting Started with Pico mit Bildern
https://magazine.raspberrypi.com/	Maker Magazin
https://www.raspberrypi.com/news/new-book-get-started-with-micropython-on-raspberry-pi-pico/	Book: Get Started with MicroPython on Raspberry Pi Pico

Zusammenbau

```
